CONTACT LIST REGARD CORRUPTION, CRIMINALITY, STATE ABUSE

I appreciate there is a broad range of issues but the list is only long because everyone responsible for these issues, has failed. Although there is a considerable amount of information the outcomes sought can be broken down into four or five basic needs as below.

1. Return of my equipment illegally held for a year and a half
2. Normalise immigration and visa status,
3. Investigation into the corruption and criminality reported
(Inc Investigation into the abuse of the Home Affairs Dept and update from PSIRA regard their investigation)
4. Identify a person, with sufficient authority, to be able to lay criminal charges
5. Secure an attorney in regards to the various lawsuits

I have submitted a Letter of Good Cause to the Director General. I understand that the usual procedure is to first go to a local immigration office, to get permission to do so. **However, as WDS and SAPS have proved themselves able and willing to interfere with my visa applications, visa extensions and immigration status at every opportunity and successfully so, i believe it would be counter productive to do so. Further, now that i have begun contacting or re contacting the organisations, bodies and persons responsible for investigating the corruption and criminality I am at considerable risk to further attempts at illegal incarceration and vulnerable to multiple other means to remove me from circulation. The chronology of the campaign have shown them more than willing to deploy any means they saw fit.**

By having to widen the number of organisations and people I am contacting I am also adding considerable and unnecessary risk to the process. We had anticipated the reporting of the corruption and criminality would have resulted in an investigation which we hoped would have gathered considerable evidence before those accused were aware. Now due to the wider nature of the reporting of the corruption and criminality and the far less targeted approaches that is unlikely, providing time and warning both to destroy evidence and to make another attempt to remove me.

THE URGENCY: "I am trying to get everything sorted out as quickly as possible. My mother, who is in her late seventies, was diagnosed with lung cancer in 2022. Because of the sabotage of my visa extension by SAPS, Mr de Swardt and his clients I have been unable to visit her. In fact, due to the Covid19 pandemic I have not seen her since leaving the UK in December 2020.

I am hopeful that the Letter of Good Cause to the Director General of Home Affairs, as well as my complaints to multiple relevant bodies, will result in the normalization of my immigration status. I would have been able to travel from the point the bogus immigration charge was withdrawn in September 2023. As such, the impossibility of extending my visa has resulted in the loss of almost a year when I could have spent precious and irreplaceable time with my mother."

As you can appreciate time is not on my side, and every day these issues remain unresolved is another day lost forever. I fear if this continues without resolution it will be too late".

NO	ISSUE	OUTCOME SOUGHT	MATTERS	DETAILS	NOTES	NOTES
1	ILLEGAL RETENTION OF EQUIPMENT SINCE 13 MARCH 2023 BY SAPS ON THE INSTRUCTION OF MR DE SWARDT (SAPS)	RETURN OF EQUIPMENT	SAPS still illegally hold all my equipment, devices, data and documents [2 laptops, 3 iPhones, 2 back up drives, 1 printer, various paperwork and documents]. The investigating officer's response to the attorneys' multiple demands for its return, as well as the Magistrates direction that they had no right to retain it, was "so sue us"	<p>The attorneys confirmed it was highly illegal and extremely unusual for SAPS to refuse to return equipment seized</p> <p>The attorneys also commented on the nonsensical excuses given to justify the illegal retention. Even on the basis of the spurious and illegal premise SAPS can retain equipment for the purposes of a fishing expedition. That would not stop SAPS taking copies of the data and returning the equipment, which following the same spurious argument would be essential in mounting a defence against charges created from a fishing expedition (which having obtained evidence illegally would be inadmissible anyway). In conclusions, the excuses given made no legal sense</p> <p>I cannot afford to lay out R100,000 to get my equipment back, regardless of whether the police / state have to then pay both parties costs when they lose. Apart from being a huge waste of R200,000 of taxpayer money to defend the indefensible. THERE IS ABSOLUTELY NO; EGAL BASIS ON WHICH THE REFUSAL TO RETURN THE ITEMS CAN BE JUSTIFIED</p>	<p>WDS and the SAPS officers had hoped to confiscate my devices at the first illegal arrest. However, having illegally pinged my phone to find my location to arrest me prior to the 4 August Spoliation Application hearing in an attempt to sabotage the hearing that i had brought in response to the two illegal evictions and the various assaults, when they turned up and begun to break into the property, myself, the attorney and portfolio manager called Central Cape Town SAPS to come to our assistance. As the arrest was illegal and unofficial and had no warrant, they were unable to take the devices (with CPT SAPS present). WDS commented to the two SAPS officers he brought with him "next time"</p> <p>At the December arrest, after having had the application for an arrest warrant rejected by Magistrates, they submitted the identical (astonishingly thin) docket to a friendly magistrate who granted an arrest warrant and seizure warrant. As such, they took everything. However, the arrest warrant only related to the three false fraud charges that had been the basis of the excuse to arrest to disguise the illegal evictions.</p> <p>After the IO had successfully stalled the start for three months, these were withdrawn the moment the NPA saw them, just before the start of the bail application. Legally. SAPS were obliged to return the equipment then. The attorneys' requests were rejected by the IO, using the bogus immigration charge he had added in at the last moment, as the justification, despite the fact the seizure warrant had no relation to the immigration charge that followed three months later.</p> <p>The magistrate confirmed SAPS had no right to withhold the equipment but felt she did not have the authority to compel them for the same reason, i.e.. the items had been seized under another case and case number unrelated to the matter over which she was presiding. After the Senior State Prosecutor withdrew the immigration charge after investigating the Representations, the final charge was therefore withdrawn. However, the IO still refused to return the equipment. On one of the occasions the attorneys demanded the return of the equipment the IO used a new excuse that they would be attempting a third illegal arrest or that they would try to revisit the charges thrown out by the prosecution. A year and a half after the withdrawal nothing further has been heard.</p> <p>One of the thirty listed reasons for the arrest and its timing was so that KB could launch an appeal to the recent High Court ruling and railroad it through with no opponent (his opponent having been incarcerated in Pollsmoor) and by committing perjury in submitting a whole series of fabricated evidence without anyone to identify the falsehoods. The appeal was prepped immediately prior to the arrest, and submitted just hours after the arrest. The purpose of taking the equipment and documentation was a) to sabotage any attempts to defend the appeal b) to enable a fishing expedition to look for anything that could be misrepresented as criminal in the knowledge the charges themselves would ultimately fail as soon as they were seen by the NPA, c) to remove the bulk of the evidence that could prove the extensive criminality to that point, d) to remove all capability to manage the platforms and booking system in my absence to aid in their plan to create victims by not informing the platform the three residences were no longer under my control, in the hope hundreds of guests would turn up to find they had nowhere to stay and no money to fund and find an alternative villa, e) to remove the ability to defend that malicious prosecution and any further malicious prosecutions as may provide them with strategic advantage.</p>	<p>MINISTER OF POLICE</p> <p>SAPS</p> <p>WESTERN CAPE OVERSIGHT</p> <p>The documentation includes many important items including receipts for items I need to report as stolen (see no.3)</p> <p>The combined value of the equipment is in excess of R100,000. I have had to buy replacement laptops, phones and printer after the failure of SAPS to return my own</p>

2	REMEDY OF THE SUCCESSFUL ATTEMPTS TO SABOTAGE VISA EXTENSIONS / NORMALISATION AND RE SET OF IMMIGRATION STATUS (HOME AFFAIRS)	VISA EXTENSION / NORMALISATION OF IMMIGRATION STATUS	My visa status still needs to be normalized after the theft of both my passport (months before the first illegal arrest) and the theft of its replacement and the illegal retention of the passport by SAPS for the explicit purpose of making visa extension impossible to be able to use that in the planned attempts to remove me, execute illegal evictions and property grabs disguised as arrests.	I have submitted a Letter of Good Cause to the Director General. I understand that the usual procedure is to first go to a local immigration office, to get permission to do so. However, as WDS and SAPS have proved themselves able and willing to interfere with my visa applications, visa extensions and immigration status at every opportunity and successfully so, i believe it would be counter productive to do so. Further, now that i have begun contacting or re contacting the organisations, bodies and persons responsible for investigating the corruption and criminality I am at considerable risk to further attempts at illegal incarceration and vulnerable to multiple other means to remove me from circulation. The chronology of the campaign have shown them more than willing to deploy any means they saw fit.	Passport stolen at the start of 2022 and passed to SAPS who held it secretly and illegally with the explicit purpose of making visa extension impossible to compromise my immigration status to use against me when needed. After the first illegal arrest, the IO refused to release me despite the minor (fabricated basis of the malicious prosecution) on the basis that I had not extended my visa, despite the fact unbeknown to us at the time he had my passport. And on the basis he claimed the Home Affairs Dept had demanded they keep me incarcerated for deportation. Something we believe was a lie. The IO also used the visa extension issue to object to bail, failing to let the prosecution know he actually had had my passport for months. Something that was only discovered later after cross examination. After bail was granted, despite there being no conditions attached to the bail and no right to hold the passport the IO continued to hold it illegally, again to make extending my visa impossible I ordered a replacement passport in the May of 2022, which due to Brexit and backlog in the UK passport office, only arrived in October 2022. I went to submit my visa extension application, however, WDS had the passport stolen again (see WhatsApp messages including the photos holding my passport) and now SAPS had both passports. Again, after the illegal arrest to disguise the illegal evictions of 14 December 2022, the new IO used the lack of a visa extension as a reason to object to bail, despite the fact he now illegally held my passport(s). Failing to tell the NPA this fact. Having attempted to delay the start of the bail application by three months, as it was finally about to start and the IO showed the prosecution and the defence the charges for the first time, the prosecution withdrew them. To maintain control and to extend my wrongful imprisonment the IO introduced a new and bogus charge, alleging a breach of the immigration rules "failure to leave SA on 23 March 2021. Despite the fact he knew a) no one arriving when i did was required to leave during 2021 due to the automatic extensions of visa, b) i had contrary to his claims extended my visa towards the end f 2021 when it looked as through automatic extensions would end soon, and c) others including SAPS had held my passport through 2022 and were still holding my passport. The IO refused to withdraw the bogus immigration charge, claiming throughout to have the full support of Home Affairs and submitted an entirely fabricated affidavit in April 2023 (4 months after the arrest) attempting to insert the bogus immigration charge into the arrest and subsequent proceedings in which it played absolutely no part. Again, referencing the Home Affairs affidavits of dubious provenance. Resulting in an additional 6 months of bail, considering legal fees, further extending the period I was unable to extend my visa, further extending the period I was unable to travel and necessitating the submission of Representations to the Senior State Prosecutor providing contact, background and the correct legal position in regard to the bogus charge	HOME AFFAIRS MINISTER <
---	---	--	--	---	---	--

4	REDRESSING THE INABILITY TO BE ABLE TO REPORT THE MANY CRIMES DURING 2022 AND 2023	<u>A SAFE, AVENUE OR PERSON (BEYOND INFLUENCE OR CORRUPTION) TO FILE THE VARIOUS CRIMINAL CHARGES</u>	During and since the campaign, it has been impossible to lay charges. Not only were attempts to do so rebuffed but even were it possible they would go nowhere.	Reporting of the crimes is pointless unless via someone with the authority and will to see them through	As examples, after the forcible entry of 1 March, we obtained a protection order against KB, which he went on to breach. Hout Bay SAPS ignored the arrest warrant	
					After WDS and the 8 thugs forced their way into the property on 22 and 24 July and assaulted and ejected the occupants the victims went to Hout Bay SAPS to report the assaults and were turned away once they knew who the matters involved	
				Very importantly, the mere reporting of the crimes places me at very considerable and very real risk from people who have proven themselves capable of putting people in prison for things they did not do purely for strategic advantage. Imagine their response if their own liberty is at risk resulting from investigations into their crimes	They had to go to Central Cape Town SAPS to report the assaults. But when the docket was sent to Hout Bay SAPS it was ignored	
					When the attorney sent the commander a letter demanding the arrest of KB after the illegal evictions and assaults it was ignored. The response of Hout Bay SAPS was instead to execute the illegal arrest of myself.	
					After the theft of my jewellery attempts to report the crime were also rebuffed	
					Multiple requests for the return of the passport being illegally held by Hout Bay SAPS were also ignored	

5	FIND AND INSTRUCT AN ATTORNEY		Willing and able to take on the various lawsuits that would include the state	A more personal need, but listed here in the hope of assistance in pointing me in the right direction.	Finding attorneys prepared to take on the state is challenging. Equally those interested in issues such as injustices
